

GYMKOTE 350

GYMKOTE is the professional's choice for premium quality wood/gym floor finishes. Manufactured from the highest quality Soya resins, GYMKOTE will provide years of outstanding beauty and durability on wood floors. The proprietary blend of Resin and Polyurethane allows the natural beauty of your wood gym floor to shine through, and with proper care and maintenance, you will not have to worry about sanding your floors for years. GYMKOTE can be applied using a lambswool pad or a T-Bar applicator.

GYMKOTE 350
