

HOT STRIPPER

CLASSIFIED BY:
UNDERWRITERS LABORATORIES, INC.
FLOOR COATING AND FINISHING MATERIAL
AS TO SLIP RESISTANCE ONLY 239 S

HOT STRIPPER

A highly active, concentrated, fast acting stripper that easily cuts through multiple layers of burnished floor finish. This “true” no rinse stripper contains a unique blend of solvents and emulsifiers making it the fastest working liquifier on the market. Low foaming, no scrub and no rinse features make this product a must for all professional floor care systems. UL Classified. NYS OGS Approved.

The highly concentrated formula reduces strip time and allows for the use of less product, reducing its environmental impact.

FEATURES & BENEFITS

- Super fast liquification of wax or finish.
- Low foaming - can be used through automatic scrubbers
- Will not damage floors surfaces
- Use for any type of wax or finish – Even the worst buildup.
- UL Classified.
- NYS OGS Approved.

ENVIRONMENTAL RESPONSIBILITY

Highly Concentrated. A little goes a long way.

High Speed Liquification - Less exposure for workers.

Twi-Laq Industries Green Initiative

The Twi-Laq Industries environmental responsibility program is premised on the introduction of less product to the environment, “Green with Less”. All Twi-Laq and SUN-GLO brand products are manufactured in a “waste free” closed environment. There are no residual byproducts from our operation.

The highly concentrated formula of Hot Stripper provides for a lower dilution ratio, introducing less product to the environment. The high activity formula promotes high speed liquification, reducing exposure to workers. Green with Less!
