

**STRIP-EZE**  
BASEBOARD STRIPPER

**STRIP-EZE**

Troubleshoot those difficult to clean areas with All New SUN-GLO STRIP-EZE. A heavy duty formulated baseboard stripper in a gel base for quick effective removal of soil and wax on floors, baseboards, and wall tiles.

The thick gel formulation adheres to vertical surfaces and stays where sprayed. White foaming action allows for easy identification of areas already treated, eliminating overusage and guesswork. Strip-Eze is packaged in a proprietary inverted spray can enabling direct application to the target area for safe, easy use.

STRIP-EZE contains no chlorofluorocarbons (CFCs) or other ozone depleting substances.

STRIP-EZE is tough enough for the complete removal of finish build-up and soil on and around baseboards, corners, equipment, ceramic walls, floor tile and other awkward areas.

Excellent for use in schools, industrial plants, hotels/motels, warehouses, hospitals, offices and institutions. Cleans baseboards, wall tiles and floors. NOTE: Painted surfaces should be tested prior to general use.

**FEATURES & BENEFITS**

- Industrial strength formula. Penetrates and loosens multiple layers of built up wax and soil in one simple operation.
- Cleans hard-to-reach areas that floor machines cannot reach.
- Clinging formula remains on vertical surfaces until rinsed or wiped away.
- Inverted Application - Sprays upside down for easy, accurate application.
- Quick penetration and dissolution of polymers and soil.
- Pleasant fragrance - no harsh chemical odors.
