TwI-LaQ Industries Green Initiative

The TwI-LaQ Industries environmental responsibility program is premised on the introduction of less product to the environment, “Green with Less”. All TwI-LaQ and SUN-GLO brand products are manufactured in a “waste free” closed environment. There are no residual byproducts from our operation.

Millennium EXP attains the same high-gloss and durability of conventional floor finishes using 1/3rd fewer coats. That means less floor finish, less stripping, and less environmental impact. Green with Less!

Next Generation polymer technology strengthens finish and increases the time between strip cycles from 18 to 36 months.
